

# Precision in Metal

As an established mechanical engineering company WIESE stands for individuality and quality. For more than 100 years we have established a reputation as a reliable and innovative partner particularly for the food and packaging industry, offering solutions to mechanical engineering requirements at the highest technical level.

At WIESE we offer a broad range of products and services from one source. Our comprehensive portfolio includes traditional metal working such as turning, milling, grinding and sheet-metal working, all the way to the production of measuring instruments and customised special-purpose machines for small batch production.

Reliable, technically mature and precisely timed.
